CATALOGUE

SOUTH INDIA SURGICAL CO. LTD.

SOUTH INDIA SURGICAL CO.LTD., popularly called as **SISCO**, is engaged in manufacturing of qualitative Surgical Instruments for last 6 decades. It has acquired a frontline position in Health Care Industry, particularly in Surgical Industry.

SISCO is the firm believer of the Principle that “behind every successful surgery an experienced hand along with appropriate tool is pre - requisite and significance of both are inseparable”.

Maintaining consistency in the quality is the prima facie for **SISCO**. It also undertakes modification and alteration of the Instruments according to the need of Surgeons. The R & D dept. Always attenuates its facilities for any suggestion / ideas.

SISCO manufactures extensive range of Surgical Instruments from **General Surgery, Cardio - Thoracic, Neuro, Urology, Plastic, Obstetrics and Gynaecology, Tungsten Carbide, ENT, Minimal Invasive Instruments**. **SISCO** envisages its market trend under backdrop of Shushruta's Culture.

These Surgical Instruments are formed out of Japanese Steel under the surveillance of qualified technicians. These Surgical Instruments are made of 4 series AISI 410 & AISI 420 steel, which is composite of carbon and chrome, providing more hardness to the Instruments, causing spring action and augmenting the life Instruments.

The strength of **SISCO** also lies in maintaining its quality, setting standards, uniqueness in its products, Centralised Marketing Systems, full fledged marketing Network, wide accessibility through Branches, Resident Representatives and last but not the least with its dealer Network.

For preserving consistency in the quality **SISCO** has been awarded **ISO 9001 : 2008 ISO 13485 : 2003** and its products are **CE Certified**.

12 Year ago **SISCO** started its full - fledged production of Disposables Syringes and Foley

Manufacturing Standard

- * ISO 9001 : 2008
- * ISO 13485 : 2003
- * CE Marked
- * DIN Standards
- * ISI Standards

Surgical Instruments Advantages

Wide Range of Instruments

SISCO Manufactures a wide range of Surgical Instruments to cater to the requirements of various surgeons. All Instruments are designed as per International Standards.

Wide Range of Catalogues

Cardio Thoracic, Gynaecology, Urology, Neurology, Tungsten Carbide, Plastic, Obstetrics, ENT, Minimal Invasive Instruments.

Clear markings

All Instruments are laser marked with respective code numbers and Batch Coded for easy and speedy identification.

Laser Marked

To avoid Duplicate Instruments

High Quality Steel

High Quality Imported steel used in Manufacture of Surgical Instruments for long life and durable inbuilt quality.

Warranty

2 years Warranty for Every Surgical Instruments.

Maintenance and care of Instruments

A very large proportion of Surgical Instruments manufactured today are of stainless steel of the appropriate grade. Though it has definite advantages there is a lot of misconceptions and wrong perception about the very word “Stainless Steel”. As a user you may have come across problems with your “Stainless Steel” Instruments Viz. CORROSION, PITTING, SPOTTING, STAINING ETC. Our Ready Reckoner in the following page will answer Cause and Solution to most of these problems.

Apart from “Technical” problems there are various other reason due to which the life of a surgical Instrument is substantially reduced. A little more care at the user end would go a long way in ensuring that an instrument remains as good as new even after years of use. Our guidelines on maintenance is simple to follow and easy to implement in your organization.

It is possible that you have a problem that is different from those identified by us being most common. We would only be happy to hear from you and offer our recommendations.
